

Dear Mark,

1/4/76

Your mailing of the 22d came yesterday. I am glad to have received the (not Ron) Kessler records. I have forwarded them asking their return, without taking the time to make copies. I am pressed for time to even read what I have.

Also in yesterday's mail is what you have wanted access to, the inside part of my Minuteman file.

You can go over it and the other Minuteman files here. I have had so much trouble getting this back, something like four years, I am really uneasy about letting it go again.

You are welcome to use my machine for making copies of what you may want, subject only to the non-copying of anything relating to my source, who is in the files and can be hurt if not killed.

I am sure you understand he requires protection.

Hasty thanks,

I'll give Jim the FOIA letter,
thanks for them, too.
